Sun Angel

SunAngel~ is a new fashion concept with the vision to create stylish, distinctive, elegant, funky and yet, very functional laptop bags, overnight bags and briefcases. By initially focusing on detailed features and conventional workmanship of each and every bag, I ensure that this unique brand offers a line of truly original, practical and structured bags of a high quality, aimed at professional women and women/ ladies who are not afraid to stand out.

My aim is to free modern women from their traditional, uninspiring and monotonous functional bags and provide them with a truly original and inspiring alternative

Designer profile: **Gaya**

Creating the SunAngel label was something that I felt made sense and fit in with the current lifestyle in both the fashion and corporate worlds.

SunAngel is more than just the name of a brand/ label. It's a lifestyle. It's the beauty, sensuality, originality and power of a woman - a SunAngel woman. A woman that has mastered the art of combining power with femininity has her own identity and is not afraid to work it.

As the founder and creative energy behind SunAngel, my skills come with no formal training in design but from a lifelong passion of beauty, innovation and originality in fashion. My innovative approach to design is thanks in part to my obsession with fashion programmes such as Style with Elsa Klensch and Fashion TV with Jeanne Beker since teenage-hood. Despite the transitions I've gone through over the years, I've always known where my calling was and where my passion lay.

My unconventional approach to designing my bags begins from identifying an unusual looking leather or other material and build up the design from that as opposed to first making a sketch. My designs do not always fit in with current trends hence their individuality and their potential appeal to individualistic women. My collection of laptop bags is an array of beautiful and vibrant colors that conjure up images of a carnival in Trinidad or Rio de Janeiro.
